

Ampco is pleased to introduce the new Premium Economy line of Rotary Piston pumps. The reconditioned Premium Economy (PE) pumps deliver new pump performance at a fraction of the cost of a new pump. With Ampco's standard upgrades, PE pumps offer quality advantages over the competitions used and new pumps.

Why Buy This?

Ampco Pumps Company

Premium Economy Pumps (PE)

When you could buy this!

AMPCO (PE) PREMIUM ECONOMY PUMPS

The Ampco PE pump offers new pump performance, a full factory warranty, distributor service and 100% parts interchangeability

Standard Ampco Upgrades on all PE Pumps

- 17-4 PH-1150 Shafts - Provides twice the tensile strength of 316
- Stainless Steel Bearing Retainers - Preventing corrosion and enhances bearing protection
- Helical Gears - Increased load carrying capacity and reduced noise
- Powdercoat paint - Better protection in a caustic environment and chip restraint
- Sealed Cleanout Plugs - protect and extend bearing life from water penetration

PE pumps are remanufactured at the Ampco factory and are rebuilt to the same standards as a new Ampco pump. Remanufactured pumps are performance tested before shipping and carry a 1 year warranty. Ampco maintains an extensive stock of pumps ready for shipment. Pumps with a single-o-ring or single mechanical seal are shipped in two business days. Pumps can be modified to customer specifications. Contact your distributor for lead time and pricing.
